

PRESS RELEASE 21**TPWODL Celebrated World Environment Day 2025**

Burla, June 6, 2025: TP Western Odisha Distribution Limited (TPWODL), a joint venture between Tata Power and Government of Odisha, celebrated World Environment Day 2025 with a vibrant and impactful event that brought together employees, volunteers, and local community members to promote environmental stewardship and sustainable living.

Aligned with the theme of Tata Sustainability Month, the celebration began with an Environment Day Pledge, reaffirming TPWODL's commitment to ecological responsibility. Participants then took part in a cleanliness drive followed by a tree plantation activity at the company's Technology Centre in Burla. A total of 80 native fruit and flowering plants were planted, contributing to biodiversity and a greener, healthier future.

A key attraction of the event was the Organic Farmers' Market, where local farmers showcased and sold fresh, chemical-free produce. This not only supported organic farming but also encouraged healthy, sustainable food choices among attendees.

The celebration served as a powerful reminder that collective action, rooted in awareness and community participation, is essential for building a sustainable tomorrow.
