

PRESS RELEASE 64**Apply for Temporary Connection at Puja Pandals: TPWODL**

Burla, September 12, 2025: During this festive session, different committees in different parts of Western Odisha will establish temporary puja pandals to celebrate various festivals. Therefore, it is hereby requested by TPWODL that all the committees should apply for temporary electricity connection to the puja pandals.

It is advised to shun unfair and illegal means of hooking electricity. These kinds of activities are unsafe, and they may put human life and property at risk, and also any accident due to an electrical short circuit may spoil the festival environment. By means of unauthorized connection, the distribution transformer may get overloaded, and it may trip during the festive hours.

Therefore, all organizers are sincerely requested to apply for a temporary connection at the nearest section office and celebrate the festival successfully.
